DETAILED ACTION

Drawings

1. The drawings are objected to because the following minor informalities:

a) **Figs. 2, 6, 7, 8 and 10**: term “usage **r**parameter control portion” shown in block 23 is misspelling.

Examiner suggests changing this term to “usage **p**parameter control portion”.

b) **Figs. 9 and 10**: term “**Prior Art**” is not shown in these figures.

According to the specification of the Applicant, **Fig.9** is the conventional ATM connection band control system, and **Fig.10** is a detailed block diagram showing a part of the prior art (see page 12 line 11-14).

Examiner suggests adding the term “(Prior Art)” to Fig.9 and Fig.10.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities:

a) Term “**is** performed” in page 3 line 2 is improper in grammar with the subject of “the connection band control and the connection admission control”.

Examiner suggests changing this term to “**are** performed”.

b) Term “preliminarily **acquire** connection band” in page 15 line 4 is improper in grammar with the subject of “the connection band control and the connection admission control”.

Examiner suggests changing this term to "preliminarily **acquired** connection band".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. **Claims 1-6** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "**such as**" in line 15 renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Allowable Subject Matter

5. **Claims 1-6** would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. **Claims 7 - 20** are allowed.
